Mission & Purpose

Patriot Academy has a bold mission: to equip and educate a generation of citizen leaders to champion the cause of freedom and truth in every sector of society, as we help restore our Constitutional Republic and the Biblical principles that cause a Nation to flourish.

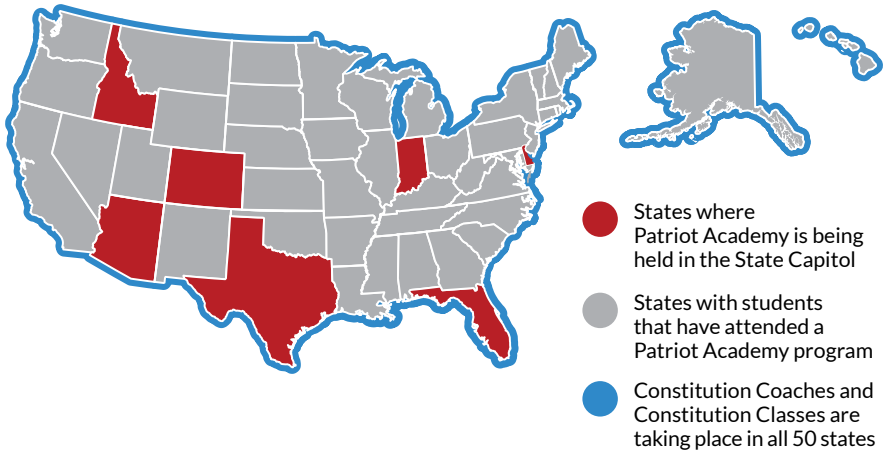

Patriot Academy has a proven track record of excellence through a simple five-part strategy:

- ★ Train citizens to understand and influence government policy with a Biblical worldview
- ★ Demonstrate the principles of ethical servant leadership from the Founding Fathers' perspective
- ★ Teach the political process and essential leadership skills through intense hands-on training
- ★ Inspire citizens to be salt and light in every area of society and culture
- ★ Equipping citizens with the tools to be force-multipliers as they in turn train other citizens

Total Patriots Trained Per Year

A National Impact

Rapid Growth

The inaugural Patriot Academy occurred at the Texas Capitol in 2003 with thirty students.

We now conduct regional Patriot Academy Leadership Congresses in six regions: **Southwest** at the Arizona Capitol, **Northwest** at the Idaho Capitol, **Southeast** at the Florida Capitol, the **Northeast** at the Delaware Capitol, the **Midwest** at the Indiana Capitol, and the **Rocky Mountain** region in Denver, Colorado!

The National Academy in Texas has grown to include the original program in addition to a Military Veteran and Constitution Coach Congress, now training over 200 students at the Texas Capitol.

Our over 24,000 Constitution and Biblical Citizenship Coaches are storming the entire nation offering an array of Constitutional Study Classes, and our Constitutional Defense Courses are now being conducted at our very own Patriot Academy Campus. Our store and online-curriculum products are ever expanding and media opportunities through a variety of television and radio outlets round out our exponential growth over the last 3 years!

What We Instill

Philosophy

Our society is woefully lacking in civic literacy and even a basic understanding of the values that made America the most successful nation in history. We teach our students to analyze policy issues through the lens of the liberty principles found in the Declaration of Independence.

Process

Process is the bedrock, of all our programs! From the most realistic mock legislative procedures where actual state legislators have been known to attend so they can be better prepared for and more effective in their upcoming legislative sessions, to practicing the art of effective negotiation, coalition building, and public relations. Conservative leaders too often rely on “right makes right” and ignore the strategy and tactics needed to win the day. Our systematic leadership training is built on the Biblical “Men of Issachar who understood the times AND knew what to do.

Personal Skills

Knowing the right thing to do and doing it effectively are two different things. Our students are trained to win the day by understanding and applying the science of persuasion and communication so they can win over their friends, family, and the general public. Students are also trained in a process that helps them identify their passion and their purpose, and effectively execute their life plan by implementing timeless, proven strategies and habits for success. These leaders have a significant advantage over their peers and a tactical edge over those who seek to radically transform our nation away from her original intent.

L

Limited Government

How to have a government operating within its proper limits.

I

Individual Liberties

Understanding the Source of our inalienable rights.

F

Free Enterprise

The true meaning behind “Pursuit of Happiness”.

T

Timeless Truths

How to defend the things that make America strong.

Leadership Congress

The “Patriot” theme is by design.

Students learn the inspirational stories of generations of patriots who sacrificed so that the Torch of Freedom could survive. At the end of trainings, they are challenged with the opportunity to join previous generations of patriots and affix their name to the Declaration of Independence beneath the names of Adams, Jefferson, and the other Signers.

Where Are They Now?

The alumni that are trained at Patriot Academy are not your “average” citizens. No matter the career or position they find themselves in, the leaders that have experienced Patriot Academy take the skills they have learned & put them to use in making a difference.

Constitution Coaches

Constitution and Biblical Citizenship Classes in Every American Community

My wife and I have been blessed to teach this class three times at our home church in Lancaster, NY. People are shocked to hear the statistics that you and Mr. Barton share during the dialog. They are surprised at how faithful and Godly many of the founders were, as they were not taught that in public school. Overall I love the class and the structure. The inclusion of the "Constitution Made Easy" is great, and I make it a prerequisite before our first meeting.

- David Casey

The Constitution Coach program equips everyday citizens with the training and materials they need to bring Patriot Academy's courses to their community. It's our growing network of grassroots citizen-trainers who gather friends and family members together, walk through a Constitution Alive! or Biblical Citizenship course, and facilitate the discussions that will turn everyday Americans into extraordinary defenders of our liberty and our timeless values.

Over 24,000 patriots have become Constitution coaches reaching all 50 states. Thousands of classes take place each year with an estimated 1,000,000 citizens having been through at least one of our courses!

BIBLICAL CITIZENSHIP

IN MODERN AMERICA

This course is specifically designed for churches and enables pastors and church leaders to deliver a powerful and effective message to their congregants about the importance of living out our American citizenship.

Christians gain a thorough knowledge of our constitutional rights from a Biblical and historical perspective, equipping them to be salt and light to their communities by defending liberty for all – especially in the midst of today’s raging culture war. Video resources include appearances from Kirk Cameron, David Barton, and many other respected Christian conservative voices.

“This is such rich content that it should be in every single church across this country!”

Constitutional Defense

I'm a 60-year old retired grandmother, never touched a gun before... the instructors are amazing... by the end of the week I'm super confident that I can go home and handle a gun safely.

- Susie

This one-of-a-kind course equips patriots of all ages with the intellectual ammunition they'll need to defend our Second Amendment rights, as well as the physical training they'll need to defend themselves in every day, real world situations.

Since 2018, more than 5,200 patriots have attended the Constitutional Defense Program, the vast majority had never touched a firearm before. 55% of attendees are females, as they see the importance of an equalizing tool for their safety. Attendee numbers make the program one of the largest firearms training programs in the nation, in just a few years of operation.

Starting in 2023, you can join us for a class at our brand-new facility at the Patriot Academy campus.

This training is more important than ever.

Patriot Academy Campus

Where patriots become
champions of liberty.

The Patriot Academy Campus is located in Fredericksburg, Texas. Sitting on 178 prime acres, it will serve as Texas' premier training facility for civics and the Constitution. A shining beacon of hope for Patriots around the nation.

A Note From Rick

Liberty-loving Americans see the rubble of the culture crumbling around them and wonder what they can do. We at Patriot Academy know what to do and we're doing it. We're picking up the pieces and rebuilding on a solid foundation and it begins in the heart of Texas with the Patriot Academy Campus. Patriots of all ages will be trained in Biblical Worldview, Constitutional foundations, and communication skills to defeat the onslaught of propaganda from the left. This is where we draw the line in the sand and begin the hard work of quite literally restoring the republic.

Sincerely,

Rick Green
